You must show respect to EPF referees and charge the standard rates for your services. Offering services for free or at reduced rates to gain an unfair advantage is not allowed and will be reported.

■ To offer referee training

As a USAP-registered trainer in good standing, you are welcome to conduct training in Europe. You may either join a team delivering an EPF referee course or work independently with EPF's approval. In the latter case, your instruction will be considered informal, as participants who are not yet credentialed by EPF will not have access to referee content on the EPF or USAP websites. You are not to share USAP copyrighted material and they are not to be considered "verified trainees" by USAP, because they are Europeans.

Please confirm the following:

- Are you a credentialed USAP trainer? _____
- Which type of training are you conducting in Europe? _____
- And to whom is it aimed (i.e., referees Level 1, level 2, other?) _____
- Which European organization are you working with, if any? _____
- Please state the location: _____ and country: _____
- Please state the specific date(s): _____

Disclaimer: Please note that no other credentials than EPF (and those issued by its member countries in their native language) are to be issued in Europe. Issuing any other credentials in Europe will place you under the USAP Officiating Compliance Program. This may result in the termination of your own credentials, and any unauthorized credentials issued will be considered null and void.
